Label the container "First Aid" and Tape to the inside of the lid, a card with the following information:

- your name, address, phone number
- name & phone number of your veterinarian
- your dogs' names and any information about any medications they take, any allergies or significant medical conditions they have
- your dogs' vaccination records
- name & phone number of someone to contact, in an emergency, who will take care of your dogs if you are incapacitated
- a list of common medications, their general dosages, and the specific dose for the weights of your own dogs
